Concessions for sinking Drinking Water Wells in *Inam* villages.

Mr. H. Krishnamurthiachar, Mulbagal Taluk.

Summary of Representation.—Native *Vaidyasalas* may be established at each *Hobli* head-quarter.

Summary of Representation.—Representation has already been made that poor communities like the Indian Christian community may be given suitable sites at nominal upset prices in Bangalore and other cities and also in villages. Although, promises have been held out by Government and Municipalities favouring the proposals, no practical scheme has yet been given effect to. The Indian Christian community has approached the Bangalore Municipality for a site, but no reply has yet been received. Suitable sites may be ordered to be given to poor communities.

Summary of Representation.—The raiyats' contribution towards drinking water wells in Government villages, has been reduced from one-half to one-third. But in the case of *Inam* villages, the old rules of contributing three-fourths of the cost still prevail. It is a great hardship to the people of *inam* villages who are now paying large amounts of local and other cesses. The concession, similar to that shown to people of *sirkar* villages may be shown in the case of *inam* villages also or, at least, the contribution may be reduced from three fourths to one half.
